### ***Background***

The city of Columbus is conducting a neighborhood planning process to create an update to the 2003 Franklinton Plan. This project builds upon similar work done for East Franklinton in 2012, but addresses West Franklinton specifically - the remaining balance of the Franklinton Area Commission's jurisdiction.

West Franklinton is a unique Columbus neighborhood and like all of them, enjoys both opportunities and challenges. The goal of the planning process is to develop a vision that protects West Franklinton's greatest assets while ensuring that it remains a strong neighborhood as a place to live, shop and raise a family.

Please join us and share your vision for West Franklinton!
