**DOWNTOWN CORE & CORRIDORS
SPECIFIC PLAN**

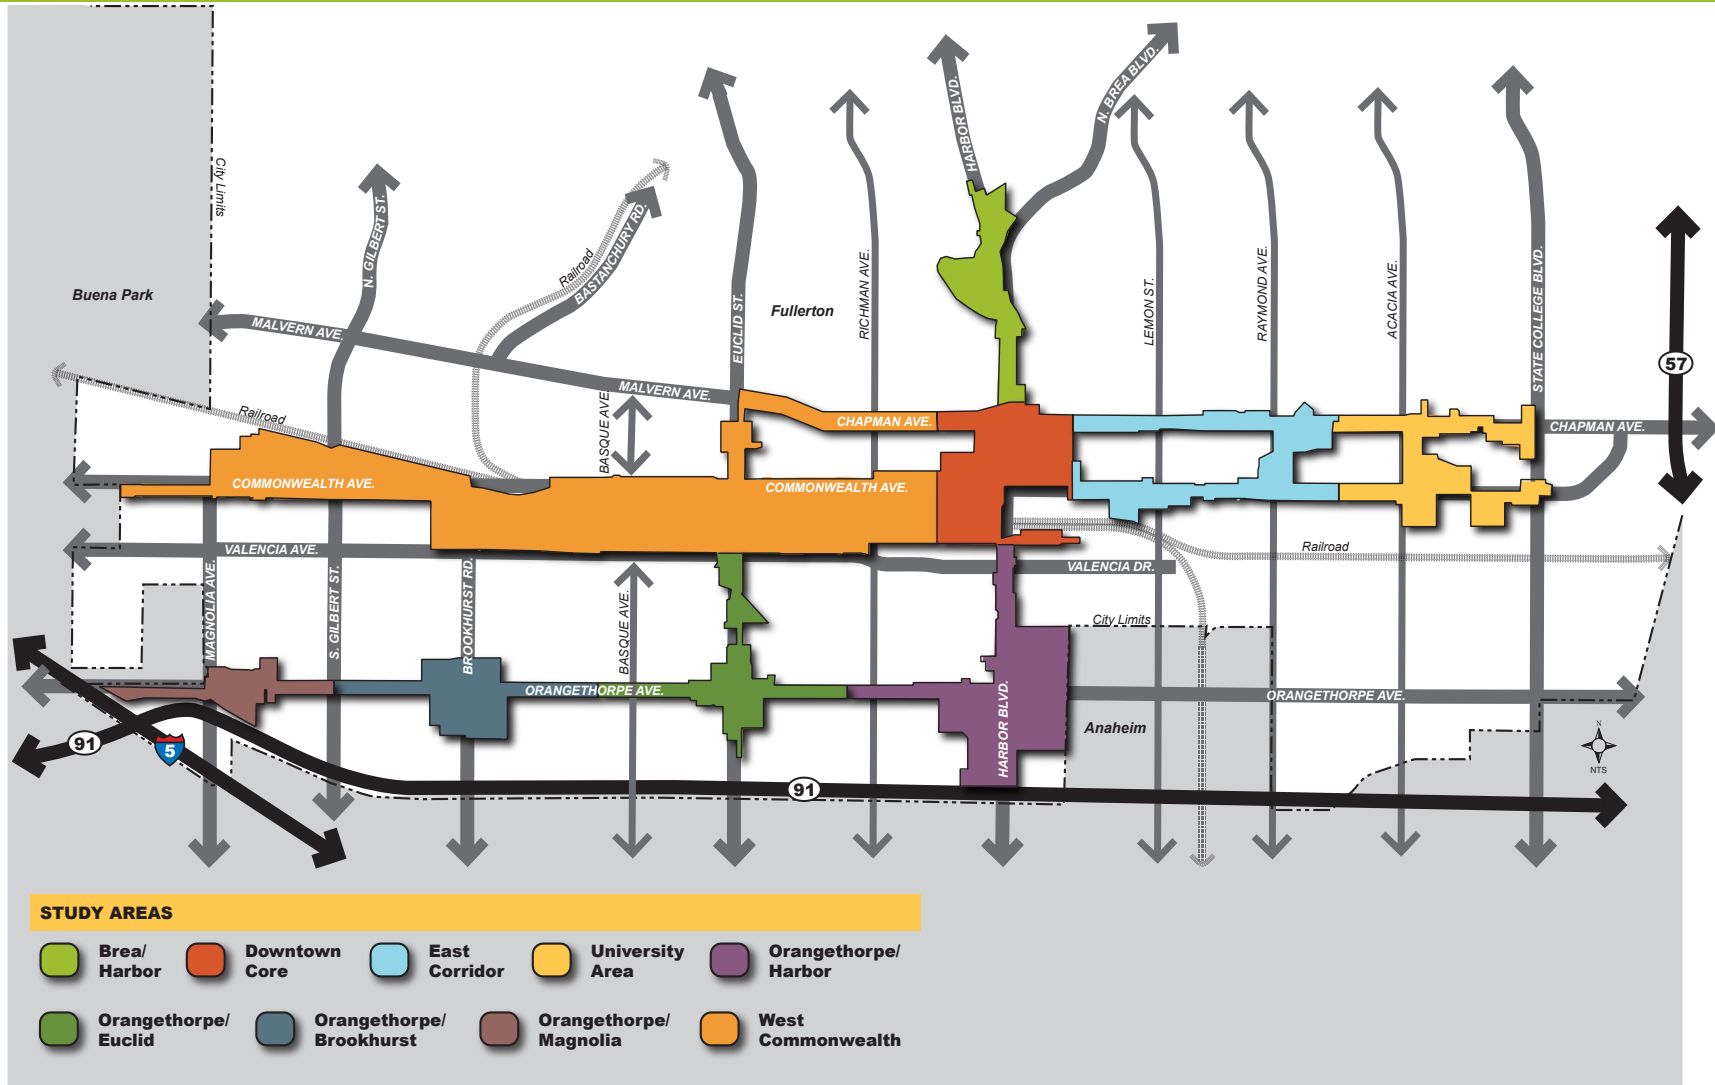

downtown core Fullerton SPECIFIC PLAN & corridors

The Downtown Core and Corridors Specific Plan (DCCSP) is a community-based planning process for an area that encompasses approximately 1100 acres and spans the commercial core and corridors across the City.

The Specific Plan will guide the transformation of the area into thriving and sustainable districts and neighborhoods

that meet the diverse needs of residents, businesses, employees and visitors.

The Specific Plan will be vision-driven and implementation-focused as it establishes policies, regulations, and design standards to guide future land development and shape streetscapes and public spaces. We invite your participation!
