**Welcome and Introductions**

- Elisa Hamblin welcomed everyone and again thanked the Committee for hard work and dedication towards this project
- Elisa touched on that the committee is coming to an end and it was time to reflect on their work
- Elisa reminded the committee that this is the time to make sure everything is aligned with the Vision and Guiding Principles
- Elisa pointed out the comments from the Oro Valley Your Voice, Our Future MindMixer website and how people have been sharing their ideas about the environment; she asked the committee to review and see if there was anything that needed to be looked into
- The starting dates for the Community and Development Committees were shared with the committee
- The last Environment Community Committee meeting will be held on December 16; at this meeting committee members will receive a cleaned up version of the workbook; final edits and recommendations will be made
- Elisa also pointed out to the committee that they will be able to keep up-to-date with the other committees by reviewing the committee packets on-line

---

**Meeting Business**

- Elisa provided a quick overview of the evening agenda
  - ✓ No presentation due to being at the end of the committee and spending time reviewing the end section
  - ✓ Covered hanging questions from the previous meeting
  - ✓ Reviewed meeting packet materials
  - ✓ There were several suggested revisions to the 11/17/2014 Meeting Summary notes – 1) Fix spelling of names Bob Milkey and Robyn Basken, 2) fix typo in last bullet of Discussion notes (vehicle) and 3) and in Public Comment Period, it was Jim Mikolaitis from the Stormwater Utility Commission

### Workbook Updates

- Elisa followed up to questions from previous meeting including: Water fluoridation (3.4.1.11), Cultural Resources (3.5) (definition & order of items in 3.5.1), Clean Environment revisions (3.6), Education in all environment sections, and Stormwater Management Plan
- Water fluoridation (3.4.1.11), added as an item
  - ✓ It was questioned on where to put above topic in workbook; needs to align
  - ✓ Committee talked about where to place new item – first phrase in vision – Elisa said she would add it in the first phrase of section – everyone agreed
  - ✓ The committee talked about the benefits, cost and interest in water in fluoride – suggested asking people how they feel about it; explore the topic
- Cultural Resources (3.5)
  - ✓ Ellen Guyer took workbook to the Historic Preservation Commission for review
  - ✓ HPC made some changes, suggested defining “cultural”
  - ✓ 3.5.1 – Elisa will continue to work on workbook after committee adjourns and rework definitions
- Clean Environment (3.6)
  - ✓ Changes were added including:
    - ✓ 3.6.2.4 – Expand this section per committee
    - ✓ 3.6.2.5 – Expand public education per committee
    - ✓ 3.6.5.9 – The committee talked about words that needed to be re-worded. Ex: “most”
    - ✓ Asked group thoughts about section and what they thought it should relay – practical, reasonable, possible – sentence will be updated in workbook
  - ✓ 3.6.4.2 – “Prohibit” strong word; Elisa will reword and present at next meeting
- Education – was added into a lot of sections
  - ✓ Elisa reviewed where education was called out and felt it was appropriate to leave in each section, decided to leave in same spots instead of having it generalized
  - ✓ Ex: energy savings – committee agreed to leave as is; it was mentioned that once it comes down to the work that is what the town does
  - ✓ The committee talked about education across the board and needing a coordinated town effort
  - ✓ Elisa pointed out that the Community chapter covers volunteering/public education; will bring it back to Environment Committee
  - ✓ Thoughts were having a training coordinator, responsibility of the town; continued to talk about who should do this, but at least bring it to light
- Stormwater – Aimee Ramsey provided Elisa information on fleet vehicles

- Stormwater Plan – there is an existing plan, and is currently being updated – Mike Todnem, Stormwater Engineer spoke in more detail about the existing plan and the changes they will be making to it
- The committee talked in more detail about the section of 3.6.3 – timeframes on actions
- 3.6.3.3 & 3.6.3.4 sections – wording will be changed and presented to committee in next meeting
- Page 17 – 5.5.5 Stormwater – question was raised if this section should be moved or would other committee (Development) handle this section – Elisa recommended it be left for Development Committee
- Committee was asking if a section in back of final piece could be added to highlight where policies/topics could be found, ie: cross-reference/table, would be useful to locate information – include topics from all committees
- It was agreed that section 3.6.3 should have a general statement about ESD in report, important to acknowledge
- Finally, Elisa talked about section 4.4.3, page 16 and how this section was relevant to the Environment Committee, and that the committee could make recommendations to the Community Committee

---

#### Other Committees – Discussion on Recommendations

- Elisa highlighted the topics that both the Community and Development Committees would be covering and asked the Environment Committee to make suggestions on what they feel needs to be added/covered
- For the Community Committee, their topics will include: economy, parks, arts, education, community involvement, public safety, Town services
- For the Development Committee, their topics will include: land use, design, growth, infrastructure, transportation
- Using three flip charts, Elisa wrote a running list of suggestions from the committee (please see attached memos in packet)

---

#### Discussion

- Elisa asked group about sections 5.3.14 & 5.3.15 – should they be in Environment or Development? Elisa said she will go back to see if this is talked about enough, will review workbook double check as well – will then regroup with committee on topic
- The committee spent some time talking about water harvesting (related to 5.3.14 & 5.3.15)
- Elisa asked the group specifically about growth: what would they want to touch on
- Elisa then talked about Bayer’s words in the previous meeting about the Vision and Guiding Principles and the charge of the Committee – stay true to community’s voice
- Elisa said she feels the committee has done this well
- She asked if there was anything in list to call out? Great job, need to call out, highlight, forgot, etc?
- A committee member talked about “Small Town feel” wondering what people felt this meant
- The committee said how they think it means – feeling part of something, keeping quality while we grow, maintain small town feel, feeling of knowing your neighbors, etc
- Elisa finished up by asking the committee how they felt they did; did they talk about what was addressed enough; did they fulfill the charge to interoperate what the community told us – they all agreed to yes

---

#### Homework and Next Steps

- Elisa will update the workbook and share additions/changes at next meeting

DRAFT

- 
- Final edits will be covered
  - Elisa asked the committee to look through General Plan, workbook, etc – codes in workbook are important, they do refer to important information
  - Elisa praised the committee saying they were one of the easiest committees she has ever had to work with
  - Invited everyone to Volunteer Reception and asked them to RSVP as soon as possible

---

**Public Comment Period - Open to audience**

- No comments

---

**Adjourn**

- **Next Environment Committee Meeting: December 16 – same place and time** – members can pick up hard copies of the meeting packet materials prior to the meeting – otherwise hard copies are available at the meeting

# ENVIRONMENT COMMITTEE WORKBOOK

## **INTRODUCTION**

During Phase 2 – ‘Let’s Think’ of the *Your Voice, Our Future* project, three topic-specific committees will be working to develop goals, policies and actions for the community’s plan. This work will guide actions and decisions for the Town’s future over the next ten years.

### *What is the workbook?*

The workbook is a tool for committees to use. It’s designed to be friendly, offer ideas and help you dive into your work. All the answers aren’t in this document, instead it represents some ideas that are supported by the community’s vision and guiding principles.

Together we can build something that truly directs a positive future for the community.

# ENVIRONMENT COMMITTEE WORKBOOK
