

Speak Up: Are These the Key Issues in Urban and Community Forestry for 2016–2026?

N°1: Building Human Health and Welfare through Urban and Community Forestry

N°2: Expanding Utilization of Technology

N°3: Enhancing Collaboration and Communication in the Field: Build on Existing Work and Partnerships

N°4: Making Urban Forestry a Central Element of Community Planning at the Regional Scale

N°5: Increasing Urban Forest Health, Biodiversity and Resilience

N°6: Expanding and Targeting UCF Research

N°7: Building Effective Leadership to Champion UCF

N°8: Increasing Funding for Urban and Community Forestry

N°9: Expanding Public Awareness, Education and Environmental Literacy

N°10: Improving UCF Management and Maintenance

N°11: Enhancing Stewardship of Both Trees and their Urban and Community Forests

N°12: Building Professionalism and Broader Access to the Field

N°13: Increasing Diversity for Social Justice and Inclusivity

N°14: Fostering Federal Agency Collaboration and Program Improvement
